

Technical data Sheet

Moosflex - Sponge Rubber Profiles Quality - EPDM 15

Raw materials: **EPDM (ethylene propylene dien monomer)**

Packaging: **Square - Round cords and special profiles**

Property Picture: **continuously extruded and vulcanized
with a closed outer skin**

Color: **black, gray**
Density: **0,45 ± 0,05 g/cm³**
Hardness: **15 ± 5 Shore A**
Recovery: **25 % (ISO 815)**
Flammability: **highly flammable**
Tolerances: **DIN ISO 3302-1 E3**

Resistance:

| | | |
|-------------------------------|--------------------------|----------------------|
| Temperature: | -35° C to +110° C | |
| Aging: | excellent | |
| Weather: | excellent | |
| UV / ozone: | excellent | |
| Oils and fat: | vegetable: | good |
| | animal: | conditionally |
| | mineral: | moderate |
| Solvents: | ketone, alcohol: | excellent |
| Acids/bases (diluted): | | excellent |
